1950 TRAVEL SUMMARY

UNITED STATES DEPARTMENT OF THE INTERIOR ROCKY MOUNTAIN NATIONAL PARK Estes Park, Colorado

David H. Canfield, Superintendent

OCT 23 1950

NATICALAS PAR

The total travel through Rocky Mountain National Park during the 1950 travel year established a new all-time record of 1,265,988 visitors, Superintendent David H. Canfield reported today. This figure represents an increase of 11.2 percent over the 1949 travel year of 1,138,162 persons.

During the period October 1, 1949 to September 30, 1950, which constituted the 1950 travel year, the 1,265,988 visitors arrived in 352,463 cars and came from every state in the Union, 3 United States possessions, and 25 foreign countries. Travel from Colorado represented 28 percent of the total, and following Colorado in the order of number of visitors were Illinois, Nebraska, Texas, Kansas, Iowa, Missouri and California. The smallest number of visitors came from Vermont. Visitors from United States possessions and foreign countries were from Puerto Rico, Guam, the Canal Zone, Alaska, Hawaii, Australia, Bulgaria, Canada, Cuba, Denmark, France, Germany, Holland, Honduras, Italy, Japan, Liberia Mexico, Nova Scotia, Norway, Newfoundland, Peru, Palestine, Philippine Islands, Persia, Russia, Saipan, Sweden, Venezuela, and the West Indies.

The six public campgrounds in Rocky Mountain National Park received a total of 46,186 camper days of use, and showed a decrease of 34 percent over the 1949 travel year. Visitor day use of hotels, lodges, and cabins in the park showed a 3 percent decrease over the same period. The decreases in camper days and paid facilities together with the fact that the total visitor day use figure is only 7 percent above last year indicates that visitors were spending less time in the park and that large numbers must have been "just passing through".

In addition to exceeding the total travel for any preceding year, a similar record was shattered for single month travel, with the month of August, 1950 showing a total travel of 414,027 persons as compared with 403,528 persons for August, 1949. The greatest travel for any single day occurred on August 13 when 18,811 persons entered the park. The previous record of 19,718 visitors on August 7, 1949 still stands however.

UNITED STATES DEPARTIENT OF THE INTERIOR ROCKY HOWNTAIN NATIONAL PARK Lates Park, Colorado David H. Canfield, Superintendent

Release on receipt - mg

1952 Travel Summary

Travel into Rocky Mountain National Park during the 1952 travel year broke all previous records David H. Canfield, Superintendent, announced today. A total of 1,338,511 people entered the Park this year.

The unprecedented heavy visitation exceeded the record set in 1950 by 72,523 persons and was 11.49% higher than last year's figure of 1,200,493 visitors.

During the period October 1, 1951 to September 30, 1952, which constituted the 1952 travel year, the large number of visitors arrived in 368,297 cars and came from every state in the Union, two United States possessions, and 24 foreign countries. Travel from Colorado represented 40% of the total number of visitors and following Colorado in the order of number of visitors were: Illinois, Texas, Hansas, Nebraska, Iowa, Lissouri, California, Oklahoma, Ohio and Lichigan. The smallest number of visitors came from Maine. Visitors from United States Possessions and foreign countries were from Argentina, Australia, Belgium, Brazil, Canada, Cuba, Denmark, England, France, Lgypt, Germany, Holland, India, Israel, Japan, Latvia, Hexico, Panama, Scotland, South Africa, Sweden, Switzerland, Turkey and Venezuela.

Campground use in wocky Mountain National Park increased 80.48% over the 1951 travel year and 104.58% over 1950. The six public campgrounds in the Park were crowded to overflowing during July, August, and the first part of September, severely taxing the available facilities. The fact that more and more people utilize campgrounds on their vacations might reflect an effort to economize or it might mean that more people are realizing what the National Parks have to offer as recreation areas.

The greatest single day's travel during the year occurred on July 4 when 19,961 people entered the Park. The previous record of 19,718 visitors was established on August 7, 1949.

Use of the Naturalist program was heavy during the season. Museum exhibits were studied by 117,792 visitors and roadside displays were viewed by 142,985. Three hundred twenty-seven Naturalist field trips were given to 10,039 travelers and 228 evening talks received an attendance of 27,891 persons. The heavy summer visitation to the Fark began on May 30 this year when the Trail Ridge Road was opened to travel. This road, highest continuous highway in the United States, normally is closed by snow from approximately October 15 to the first of June. The scenic Old Fall River Road was open for "up" travel only from July 1 throughout the season.

There were no fatal accidents in the Park this year though two people died of heart attacks within the Park. Mountaineering accidents were at a minimum again this season. Most of the accidents in this category were caused by people sliding down snowbanks and piling into rocks below.

The Trail Ridge Road will remain open until snow makes it impassable. About December 1 the road will be plowed open on weekends to the Upper Hidden Valley Ski Area on the eastern side of the Park to permit use of this area.
