Memorandum

To: Superintendent, Mesa Verde
From: Regional Forester
Subject: Forestry Master Plan Development Outline, Hovenweep

There is attached in duplicate, a draft of the Forestry Master Plan Development Outline, Hovenweep. This has been re-written from the data contained in the draft of the outline submitted to this office on February 22.

Will you please review the attached outline and make any corrections or revisions which may come to your attention. When you have completed the review please return one copy to this office indicating your concurrence in the draft.

In checking the area of Hovenweep, we find that the area we have been using in the past is not in agreement with that shown in the booklet "Areas Administered by the National Park Service, June 30, 1951". We wish that you would revise the Form 10-430, Park Acreage Statistical Summary for Hovenweep. Since the monument lies in two states, we suggest that one form be used for acreages in both Colorado and Utah, this can be done by drawing a line through columns 2 and 4 indicating Colorado and Utah respectively, as well as a line through Table II. The total area of the Monument is 410.32 of which 160 are in Utah and the balance 250.32 are in Colorado. Three of the forms are attached, please return one of the completed forms to this office.

(SIGNED)

S. T. Carlson
Regional Forester
