Memorandum

To: Superintendent, Mesa Verde
From: Regional Architect
Subject: Individual Building Reports, Hovenweep

6 20 Hoven

We have an individual building report for a ranger residence at Hovenweep with photographs of two buildings and plan for one.

I understand these two buildings have been combined to form one building in a new location. As the present report is so obsolete and inaccurate, please prepare a new report for this or any other structures existing except the residence and office for which a report was recently submitted. If you prefer, you can supply us the data required on the attached sheets, photographs in triplicate, and sketch plans drawn on thin paper at a scale which will fit the space provided on the folders. We can then prepare the folders here.

Please comply with this request as early as possible, as we have been asked by the Washington office to explain the present duplication in building numbers. With the submission of the new folders requested, we will change the number for the present residence and office building from "1" to "2" to conform to Master Plan Drawing NM-HOV/2005. Note that this drawing also shows a storage building No. 1, a power house No. 3, and a pit toilet as existing.
