Mr Dale King  
3rd Regional Office, N.P.S.  
Sante Fe,  
New Mexico

Dear Sir:-

I am interested on some literature about Yucca House and also on Hovenweep Ruins. I would appreciate about six or seven copies of each if they are available. There is something else I would like to draw to the attention of the Regional Office is, could there not be signs made to direct people to both the above mentioned places and placed on the main highways and one or two thru out the land and roads leading to each of these outstanding ruins?

As to the register at Yucca House there hasn't been a hundred people registered there as there isn't any definite signs as to where to turn off the main roads and then the side roads. (People Registered from Aug '47 to June 6, '48) The elderly Gentleman who lives there near the Yucca house Monument made the same statement I am writing about why there isn't some signs made and posted in the best places leading off from the highways.

So many people here in Cortez, Colorado are new citizens and don't even know about such places and would appreciate some markers to help the tourists and not have to pass up some of the oldest ruins within the state.

If you recall My Son and I made you a visit last year while traveling about Sante Fe and the northern part of N. Mexico. This year will visit the far northern Monuments and then back to Cal down thru the National Parks and to the warmer climate again. Would appreciate any information you can mail to Us on the two Mon' which I have mentioned above.

Very truly yours,

*Mrs Harriet H. Miller*
