Symposium

## Student Success from the Start!

Drs. Bailie Peterson and Lyda McCartin

### **Group Activity**

1. Review the success strategies with your breakout room group.
2. As a group, select your two favorite strategies and be prepared to discuss in the main room. You'll be asked to share:
  - a. Which strategies you selected
  - b. Why you like those strategies
3. Assign a group reporter to share your group's ideas.

## Personal Action Plan

Based on today's discussion and your review of some student success strategies, determine a personal action plan.

Which success strategy will you implement?	
In which course(s) will you implement the new strategy?	
What do you hope to gain by implementing this strategy?	
How will you implement this strategy?
